

# AI arm spruces up Delhi airport ops

dna correspondent @dna

**Mumbai:** Air India SATS Airport Services Pvt Ltd. (AISATS), a subsidiary of Air India, has further invested Rs 57 crore in new Ground Support Equipment (GSE) at the Delhi IGI Airport.

The investment is a part of Rs 85 crore invested in GSE by AISATS in the past one year. The officials said that GSE deployed will not only enhance service delivery standards but also improve operational efficiency and compliance with local airport regulations. As per the figures available, AISATS currently handles around 50% of scheduled flights daily at Delhi air-

port, which is considered as India's busiest airport.

Willy Ko, CEO, AISATS said, "Certainly the 'Made in India'

vision offers many opportunities for AISATS, its employees and partners. While we will continue to relentlessly look for new business opportunities, we are continuously strengthening our existing operations. Since our incorporation five years ago, we have invested more than 160 crores rupees in Ground Support Equipment." AISATS is a 50:50 venture between Air India, and Singapore Airport Terminal Services (SATS), a leading gateway services and food solutions provider in Asia. The company provides ground and cargo handling at Bengaluru, Delhi, Thiruvananthapuram Hyderabad and Mangalore.
